LED floodlight with IP66-rated solar panel. Floodlight designed to provide a great flow of light in gardens, terraces and facades. It has a solar panel with battery, which allows you to charge the projector using sunlight. You can control the light intensity of the projector with the remote control, as well as setting the switch-off time (3-5-8h). Ideal for lighting passageways on terraces and in gardens thanks to its twilight and movement sensor. 100W warm white light.
