House stay: Garden - outdoor

LED Wall Light for outdoor and indoor wall with IP54, waterproof. With this wall light you can regulate the beam of light created by the two light sources thanks to the folding tabs on the inside. This way you can create different atmospheres with a high optical comfort thanks to its technology to reduce flicker. It has a total power of 10W, 5W each of its light sources and a luminous flux of 700lm. This model, made from aluminium, is available in a textured white or anthracite grey finish, with two types of light to choose between neutral and warm light.
