LED type: LED SMD
Beam angle: 120
Lifetime (h): 10.000
ON/OFF: 5.000
Dimensions (mm): 82x20x70
Pcs / Pack: 1

With a black finish this is the best choice to use as a night light. It features an integrated motion sensor which works automatically in low light or you can manually override for use during the day. 5 white LED bulbs inside give a natural and bright colour. It requires 3xAAA batteries (not included) to expect up to 10.000 hours of light. It will detect up to 5 metres and has a 120° beam angle.
