Recessed movable spotlight in gold from the 353300 series. The gold recessed spotlights are presented as TOP SELLERS within the Ángel Aparicio Spain brand. Thanks to their elegant gold finish, these recessed lights are widely used to give a distinctive touch to complete the lighting of rooms. They are recommended for use in the lighting of rooms in the home as well as in halls and passageways in hotels and businesses. Once the recessed luminaire is installed in the ceiling, the inner ring can be tilted to direct the lighting to one side or the other (tilting angle of 30°). The bulb can be easily replaced on the front of the recessed luminaire without having to remove it from the ceiling.
