

Emergency Magnetic Strobe Light

Reference: SR-CAR-SOS

IP Rating: 54

Batteries: Not included

Magnetic Emergency signalling lamp certified, complies with the new DGT regulations.

It has a yellow flashing emergency light and a white light of two different intensities for use as a torch. Very useful to place on the body of the car and light up at night while changing the wheel. In addition to being magnetic, it has a hanger to hold it in case you do not have a magnetic surface to place it on.

It works with three AAA batteries not included.
