LED wall light for installation on bathroom mirrors. Wall light with LED lighting in a cool white tone (5700°K) projected uniformly downwards. In this way, the Rome LED wall lamp is presented as a very practical solution for providing lighting over the bathroom mirror. It is made from aluminium and abs, with a polymer diffuser known as ebirex that provides uniform light. The Angel Aparicio Spain bathroom wall lights can be installed in three ways, allowing them to be placed directly on the mirror, on the cabinet or on the back panel. IP44

degree of protection against water splashes in the bathroom.
