House stay: Garden - outdoor

LED wall light for outdoor and indoor use with IP54, waterproof. With this wall light you can regulate the light beam created by the wall light with its four light sources thanks to the folding tabs inside the wall light. This way you can create different atmospheres with a high optical comfort thanks to its technology to reduce flicker. It has a total power of 20W, 5W each of its light sources and a luminous flux of 1400lm. This model, made from aluminium, is available in a textured white or anthracite grey finish, with neutral lighting.
