House stay: Garden - outdoor

SMART LED wall light for indoor and outdoor wall with IP54, waterproof. With this wall light you can regulate the light beam created by the two light sources thanks to the folding flaps inside the wall light. This way you can create different atmospheres with a high optical comfort thanks to its technology to reduce flicker. It has a total power of 10W, 5W each of its light sources and a luminous flux of 700lm. This model, made from aluminium, is available in a textured white or anthracite grey finish, with a choice of two light levels: neutral

light or warm light.
